

Comprehensive Health Appraisal

Please fill this packet out in its entirety.
The packet contains a two day diet analysis and therefore must be
filled out two days before your appointment.

What Should I Expect?

Your experience through the Comprehensive Health Assessment will put you on a journey to a new level of health. We have designed this program for those people who are committed to changing their health and willing to become an active participant in the process.

INITIAL CONSULTATION:

The initial consultation will outline a holistic method of approach for your problem by understanding more about you, your lifestyle, your genetic make up, your health history and your diet. Instead of focusing on the condition the person has, we focus on the PERSON that has the condition. The underlying cause of most health problems is usually an organ or system of your body that has lost its "organ reserve". Let's use the analogy of an automobile. What happens when your gas tank goes lower than the tank reserve? Your car begins to hesitate and drive below its normal performance and eventually...your car stops. When you stress an organ system for decades due to excess stress, poor dietary choices, lack of nutrition, deficient sleep, lack of exercise and a build up of toxins you will lose your organ reserve which will result in organ dysfunction (disease) and eventually a symptom. Our goal is not to solely focus on the symptom, but the underlying cause of the condition.

LABORATORY TESTING:

The doctor may recommend special laboratory testing to further evaluate your condition. Testing may be completed from blood, urine, saliva or stool and most testing can be completed in the comfort of your home. After the testing is received and evaluated, an individual program will be designed to assist your body in obtaining health. Depending on your case, the doctor may set up follow consultations over a period of time to evaluate and discuss your progress.

PAYMENTS:

In regards to the nutritional services in this office, payment is due at the time of service. For your comfort, all fees will be explained before any services are rendered.

QUESTIONS:

It is important to ask as many questions as possible. Our goal is to empower you to understand that your body was designed to be healthy! We will focus on your body's natural ability to heal and we look forward to taking this journey with you.

I understand the above information: _____
(Signature) (Date)

Terms of Acceptance for Nutritional Care

We solely provide any suggested nutritional advice or dietary advice, and the adjunctive schedule of nutrition to upgrade the quality of foods and nutrients in your diet and to support the normal processes of your body.

We use diagnostic testing to find dysfunction in the organ systems of the body. We will not use any of the diagnostic testing to diagnose and/or treat disease, but only to enhance the function of the human body. Regardless of what the disease is called, we do not offer to treat it.

A vitamin, mineral, trace element, amino acid or herb is not a drug. Although any of these substances may have an effect on any disease process or symptom, this does not mean that they should be misrepresented or classified as drugs.

I understand *the objectives pertaining to my nutritional care in this office. Therefore, I accept nutritional care on this basis.*

PATIENT PRIVACY CONSENT FORM

FOR USE AND/OR DISCLOSURE OF PROTECTED HEALTH INFORMATION TO CARRY OUT ANALYSIS, TREATMENT, PAYMENT AND HEALTHCARE OPERATIONS.

I, _____ hereby state that by signing this consent, I acknowledge and agree as follows:

___ 1. The practice's Privacy Notice has been provided to me prior to my signing this consent. The Privacy Notice includes a complete description of the uses and/or disclosures of my protected health information (PHI) necessary for the practice to provide analysis and treatment for me, and also necessary for the practice to obtain payment for that treatment and to carry out its healthcare operations. The practice explained to me that the privacy notice would be available to me in the future at my request. The practice has encouraged me to read the privacy notice carefully prior to signing this consent.

___ 2. The practice reserves the right to change its privacy practices that are described in its privacy notice, in accordance with applicable law.

___ 3. I understand that, and consent to, the following appointment reminders that will be used by the practice:

- Postcards mailed to the addresses I have provided.
- Telephoning me at the numbers I have provided and leaving messages for me on my answering machine or with the individual answering the phone.

___ 4. The practice may use and/or disclose my PHI (which includes information about my health or condition, analysis, and the treatment provided to me) in order for the practice to make analyses about my condition(s), treat me, obtain payment for that treatment, and as necessary for the practice to conduct its specific health care operations.

___ 5. I understand that I have the right to request that the practice restrict how my PHI is used and/or disclosed except to obtain payment for treatment provided. However, the practice is not required to agree to any restrictions that I have requested, and I have the right to refuse treatment.

___ 6. I understand that this consent is valid as long as I am a patient in this office. I further understand that I have the right to revoke this consent, in writing at any time for all future transactions, with the understanding that any such revocation shall not apply to the extent that the practice has already taken action in reliance on this consent. If I revoke this consent at any time, the practice has the right to refuse to treat me.

I have read and understand the above statements. I understand that I have the right to refuse to sign this authorization. If I choose to decline signing this consent form, this practice will not treat me.

Are Your Health Problems Yeast Connected?	Yes	No
Have you taken repeated "rounds" of antibiotic drugs?		
Have you been troubled by premenstrual tension, abdominal pain, menstrual problems, vaginitis, prostatitis, or loss of sexual interest? (Circle all that apply)		
Does exposure to tobacco, perfume and other chemical odors provoke moderate to severe symptoms? (Circle all that apply)		
Do you crave sugar, breads, or alcoholic beverages? (Circle all that apply)		
Do you have recurrent digestive symptoms?		
Do you suffer from fatigue, depression, poor memory, or "nerves"? (Circle all that apply)		
Do you suffer from hives, psoriasis, eczema or other chronic skin rashes? (Circle all that apply)		
Have you ever taken birth control pills?		
Do you suffer from headaches, muscle and joint pains or incoordination? (Circle all that apply)		
Do you feel bad all over, yet the cause has not been found?		
If you have 3 or 4 "yes" answers, yeasts possibly play a role in causing your symptoms. If you have 5 or 6 "yes" answers, yeasts probably play a role in causing your symptoms. If you have 7 or more "yes" answers, your symptoms are almost certainly yeast-connected. Copyright 1983, William G. Crook, M.D.		

Immune Balance	Yes	No
Do you easily catch colds or flu bugs? (Circle all that apply)		
Are you slow to recover from infections?		
Do you have swollen lymph nodes in neck, armpit, or groin? (Circle all that apply)		
Do you have seasonal allergies?		
Do you experience chronic sinus congestion or post-nasal drip? (Circle all that apply)		
Do you feel worse (within a few hours to two days) after eating certain foods?		
Do you have dark circles under your eyes?		
Do you experience asthma?		
Have you ever been diagnosed with an autoimmune disease?		
Do you experience joint pain?		
Do you suffer from itching of eyes, nose, palate, throat, or skin? (Circle all that apply)		
Are you sensitive to molds, dust, pets, or other parts of the environment? (Circle all that apply)		
Is there a history of cancer in your family?		
Does your diet consist of daily or almost daily intake of any wheat products (breads, pastas, cereals)?		
Do you crave sugar?		
Have you had prolonged or repeated courses of antibiotics at any time in your life?		
Are you having diminished energy or "foggy thinking" processes? (Circle all that apply)		

Nutrition & Digestion	Yes	No
Do you include fast food in your diet?		
Are you on a vegan diet (vegetarian, with no eggs or dairy)?		
Do you have more than 3 alcoholic drinks per week?		
Do you experience belching, bloating, or persistent fullness after eating? (Circle all that apply)		
Do you have a poor appetite?		
Do you have a bad taste in your mouth?		
Have you had a partial or complete loss of taste? (Circle all that apply)		
Do you have intolerance to specific foods?		
Do you have trouble swallowing?		
Do you have a history of anemia?		
Do you see undigested food in your stool or a greasy film on the toilet water? (Circle all that apply)		
Do you have difficulty gaining weight?		
Do you experience acid reflux/heartburn?		
Do you use acid blocking drugs (e.g., Pepcid AC) or antacids? (Circle all that apply)		
Do you use digestive aids (enzymes)?		
Are your fingernails soft, brittle, or dotted with white spots? (Circle all that apply)		
Are you prone to muscle cramps?		
Do you have poor night vision?		
Is your skin dry, easily bruised, or slow to heal when injured? (Circle all that apply)		

Endocrine Balance	Yes	No
Do you suffer from chronic stress?		
Do you feel worse from skipping a meal or after eating sweets? (Circle all that apply)		
Do you suddenly feel dizzy upon standing?		
Do you have difficulty sleeping, or wake not feeling refreshed? (Circle all that apply)		
Do you feel more tired or depressed during the winter months?		
Have you had a loss of body hair (men & women) and/or scalp hair (women)?		
Are you sensitive to minor weather changes?		
Does your skin tan without sun exposure?		
Do you crave salt?		
Have you noted mood swings?		
Have you been told you have high blood pressure?		
Have you been told you have high cholesterol or triglycerides in your blood?		
Is there a family history of osteoporosis?		
Has there been a decline in your sex drive?		
Do you suffer from fatigue, constipation, weight gain, dry skin, or chilliness? (Circle all that apply)		
Do you have excess weight around your middle?		
Have you experienced an increase in thirst or urination?		
Do you feel worse during your pre-menstrual time? (women)		
Do you have a history of infertility or miscarriage? (women)		
Have you experienced change in your menstrual periods? (women)		
Have you felt worse since menopause? (women)		
Have you felt tired or less motivated since turning age 50 or so? (men)		

Detoxification & Elimination		Yes	No
Do you have a history of exposure to chemical or toxic metals in your work or home environment?			
Do you have amalgam (silver) fillings?			
Do you include large fish in your diet (tuna, swordfish, and halibut)?			
Are you sensitive to smells such as car exhaust, perfumes, household cleaners, and cigarette smoke? (Circle all that apply)			
Do you currently take more than one regular medication?			
Are you prone to side effects from medication?			
Do you have trouble with thinking or memory?			
Have you become more sensitive to alcohol?			
Do you have a history of liver disease, hepatitis or mononucleosis? (Circle all that apply)			
Are your muscles stiff or sore, or do they fatigue quickly?			
Do you have frequent headaches?			
Do you have oral sores, dental caries, or gingivitis?			
Do you suffer from constipation and/or diarrhea? (Circle all that apply)			
Do you have dry, hard, or small stool?			
Do you experience frequent gas or bloating?			
Do you suffer from abdominal discomfort or cramping?			
Have you had 2 or more courses of antibiotics in the past year?			
Has there been any foreign travel?			
Have you ever had water from a well or stream?			

General Musculoskeletal					
Do you experience?	Yes	No	Do you experience?	Yes	No
Muscle aches			Tendonitis

SF-36 Questionnaire

1. In general would you say your health is:

Excellent Good Fair Poor

2. Compared to one year ago, how would you rate your health in general now vs. one year ago?

Much better Somewhat better About the same Much worse

3. The following items are about activities you might do during a typical day. Does your health now limit you in these activities? If so, how much?

Yes, Limited a lot Yes, Limited a little No, Not limited at all

4. During the past 4 weeks have you had any of the following problems with your work or other regular daily activities as a result of your physical health?

- a. Yes No Cut down the *amount of time* you spent on work or other activities.
- b. Yes No *Accomplished* less than you would like.
- c. Yes No Were limited in the *kind* of work or other activities.
- d. Yes No Had difficulty performing at work or other activities (for example, it took extra effort).

5. During the past 4 weeks, have you had any of the following problems with your work or other regular activities as a result of any emotional problems (such as feeling depressed or anxious)?

- a. Yes No Cut down the *amount of time* you spent on work or other activities.
- b. Yes No *Accomplished* less than you would like.
- c. Yes No Were limited in the *kind* of work or other activities.
- d. Yes No Had difficulty performing at work or other activities (for example, it took extra effort).

6. During the past 4 weeks to what extent has your physical health, emotional problems interfered with your normal social activities with family, friends, neighbors or groups?

Not at all Slightly Moderately Severe Very severe

7. How much pain have you had during the past 4 weeks?

None Very mild Mild Moderate Severe Very severe

8. During the past 4 weeks, how much did pain interfere with your normal work (including both work outside the home and housework)?

Not at all A little bit Moderately Quite a bit Extremely

9. These questions are about how you feel and how things have been with you *during the past 4 weeks*. For each question, please give the one answer that comes closest to the way you have been feeling. How much of the time *during the past 4 weeks*

a. Did you feel full of pep?

All the time Most of the time Some of the Time A little of the time None of the time

b. Have you been a nervous person?

All the time Most of the time Some of the Time A little of the time None of the time

c. Have you felt so down in the dumps that nothing could cheer you up?

All the time Most of the time Some of the Time A little of the time None of the time

d. Have you felt calm and peaceful?

All the time Most of the time Some of the Time A little of the time None of the time

e. Did you have a lot of energy?

All the time Most of the time Some of the Time A little of the time None of the time

f. Have you felt downhearted or blue?

All the time Most of the time Some of the Time A little of the time None of the time

g. Did you feel worn out?

All the time Most of the time Some of the Time A little of the time None of the time

h. Have you been a happy person?

All the time Most of the time Some of the Time A little of the time None of the time

i. Did you feel tired?

All the time Most of the time Some of the Time A little of the time None of the time

10. During the *past 4 weeks* how much of the time has your *physical health or emotional problems* interfered with your social activities (like visiting friends, relatives, etc.)?

All the time Most of the time Some of the Time A little of the time None of the time

11. How TRUE or FALSE is each of the following statements for you?

a. I seem to get sick easier than other people

Definitely true Mostly true Don't know Mostly false Definitely false

b. I am as healthy as anybody I know

Definitely true Mostly true Don't know Mostly false Definitely false

c. I expect my health to get worse

Definitely true Mostly true Don't know Mostly false Definitely false

d. My health is excellent

Definitely true Mostly true Don't know Mostly false Definitely false

DIET ANALYSIS

- Keep an **accurate** record of every food and beverage you consume. Write it down as you eat to help you remember exactly what you ate.
- Be honest. It is important to note everything, including water, to get the most accurate results.
- If eating fast or prepared food, write down the name of the restaurant or brand name with the type of food, e.g., McDonald's Big Mac or Kraft Macaroni and Cheese.
- Try to get an idea of portions by looking at labels. This will make the analysis as accurate as possible. You need to measure meat in ounces, and vegetables, sauces and most other foods in cups ($\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$ or 1). See below for serving size estimating techniques. You can just count eggs.
- Write down how it was cooked (fried, baked, steamed, etc.).
- Keep a two-day record, one day on the weekend and the other on a weekday. Try to pick "normal days" so we can get a true picture of your diet.
- Mail or bring in the diet, and after we complete the analysis we will call you to set up a convenient time for a consultation.

Examples of recording the food

Date / Time	Food / Beverage	Quantity	Preparation Method
1/5/03 6:45AM	Eggs	4	Scrambled
1/5/03 5:30PM	Chicken Breast	3.5 oz	Baked
1/5/03 5:30PM	Mixed Vegetables (carrots, broccoli, cauliflower)	2 Cups	Steamed
1/6/03 12:00PM	McDonald's Big Mac	2	

Serving Size Estimating Techniques

- 3 ounces of meat is about the size and thickness of a deck of playing cards or an audio cassette tape.
- A medium apple or peach is about the size of a tennis ball.
- 1 ounce of cheese is about the size of 4 stacked dice.
- $\frac{1}{4}$ cup of ice cream is about the size of a racquetball or tennis ball.
- 1 cup of mashed potatoes or broccoli is about the size of your fist.
- 1 teaspoon of butter or peanut butter is about the size of the tip of your thumb.
- 1 ounce of nuts or small candies equals one handful.

If you have any questions, please don't hesitate to call our office.
